Lifelong Learning Programme Comenius Programme

Bilateral Partnership 2012-2014

The project **”Green Energy for a Clean Earth”**

●Partners:

**Liceul Tehnologic
Voinești
coordinator school
Romania**

**Masarykova střední škola
Letovice
partener school
The Czech Republic**

● Mobilities of students

21st April to 4th May 2013 Letovice, Czech Republic

1st to 14st March 2014 Voinesti, Romania

Liceul Tehnologic Voinești Project team

- Ion Constantinescu, project coordinator, principal
- Lucian Isvoranu, English teacher
- Alina Sandulescu, English teacher

Masarykova střední škola Letovice Project team

- Ing. Kateřina Chalupková, English teacher
- Ing. Mikuláš Derňár, teacher
- Ing. Ludmila Kintrová, teacher

Students

Georgian-Florentin Călin
Mihai-Iulian Ciobanu
Sebastian-Laurențiu Curbene
Honciu Cristiana-Andreea
Tiberiu-Adrian Dîrstaru
Florin-Adrian Dragomir
Silviu-Adrian Dumitru
Silviu-Ionut Matachi
Constantin-Raul Necula
Carmen-Ionela Stoian
Alina-Georgiana Țuțuianu
Andrei-George Ungureanu

Pavel Horáček
Roman Christ
Jana Studnařová
Ondřej Čejka
David Čížek
Marek Čech
Jakub Samson
Miroslav Odvárka
Nikola Motyčková
Tereza Francová
Michal Řezník

Main activities of the project

- ♦ **Project Meeting 15-17.11.2012, Letovice, Czech Republic**
The visit of coordinator in Masarykova střední škola Letovice

- ♦ **Mobilities of Romanian students to Letovice, Czech Republic, 21.04-4.05.2013**

- ♦ **Activities of the Romanian and Czech in the Czech school and community.**

- multimedia presentations in the field of non-conventional energy;
- working in mixed Romanian and Czech teams to complete the dictionary and the guide of conversation in the three languages of the project;

- photovoltaic panel installation in the Czech school (product of the project);
- organizing debates, round tables and discussions on various topics using multimedia;
- identifying themes to final presentation in Romania;
- meetings with staff of the local community;
- thematic visits: Olešnice biogas plant, Dlouhé Straně hydropower plant;

The programme

Saturday, 1 March 2014

When we arrived at the airport and saw our plane we were a little bit surprised of its size, but the flight was really good and some of us enjoyed nice views from the plane window ☺

After two and half hour flight we arrived at the International Airport Henri Coanda where our romanian colleague was waiting for us to take us to Voinesti.

Sunday, 2 March 2014

In the morning we got on the bus and went to Brasov.

This old town is very famous for the Bran Castle where, according to the legend, the count Dracula lived in. The castle is very nice and very well equipped by the original pieces of furniture.

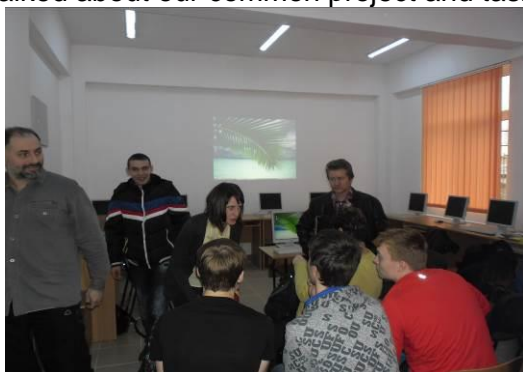

Week I

Monday, 3 March 2014

This day we went firstly to school ☺

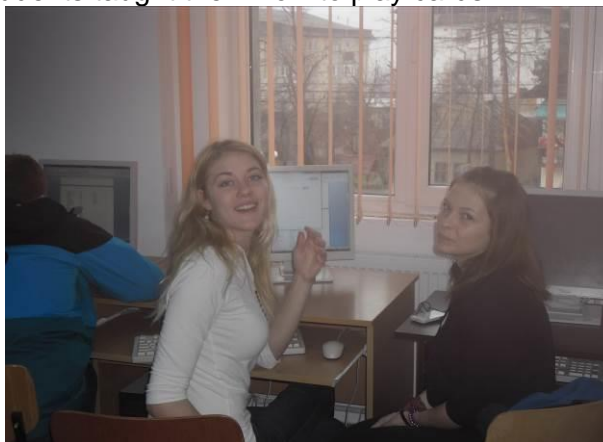

Where we started our common project in the IT room, where we watched the presentations about Romania and the region Dambovit county, in which our partner school is located and talked about our common project and tasks that must be done.

Tuesday, 4 March 2014

On Tuesday we started working on our common dictionaries and guides of conversation in IT room.. Then our students visited lessons with their Romanian students to see how they are educated and during the break some of our students taught them how to play cards.....

Wednesday, 5 March 2014

This day both Czech and Romanian students with their physics teachers worked on solar lamp. Everybody tried to instal the solar panel to see how the photovoltaic panel can work.

Some students were really skillful and some of them needed a helping hand☺

Thursday, 6 March 2014

On Thursday we went to Moroieni to visit the Hydropower Plant Moroieni. This hydropower plant is one of the oldest ones in Romania.

The hydropower plant workers told us everything about this hydropower plant, about its system, workers, national electric system and others. They showed took the engine room...

and then the control room.

Friday, 7 March 2014

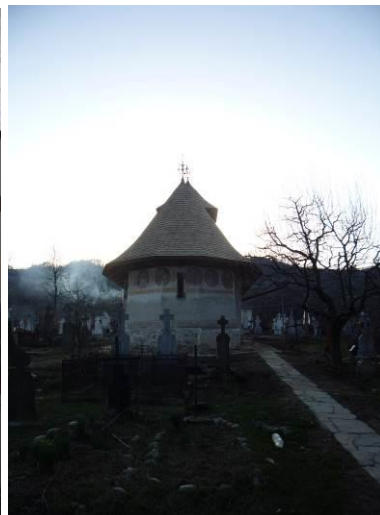

On Friday we met the local representatives of the local community. We learnt a lot of pieces of information about the town, for example there are 15 primary schools and two secondary schools in a place where over 7,000 people live. This county is the county of apples and there is also a research station with a lot of hectares of apple trees.

The students had some questions about the Voinesti town and its people and facilities and the mayor was so kind to them that he answered all the questions and because our students made an impression on him....

he took us to see the oldest church in the region...

and then he invited us on the common dinner where we tasted their traditional food and drinks. The dinner was held in Gemenea in the local restaurant and I must say their food is really delicious. There was also a music band, because Romanians are very friendly and happy people who like celebrating, so we also danced.

Saturday, 8 March 2014

The Romanian partners planned a sport day for us. We could play table tennis and chess. Some of our students are really good at playing chess. There was also a student who instead of playing table tennis or chess was learning bookkeeping ☺

Sunday, 9 March 2014

On Sunday we went to visit the Photovoltaic Park Tartasesti, where we were given lot of pieces of information about this type of energy

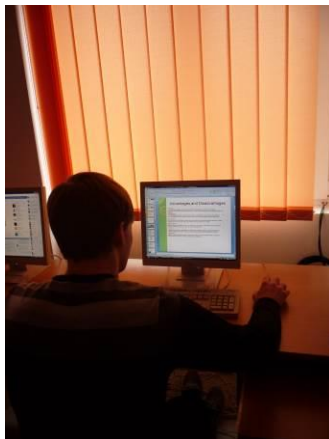

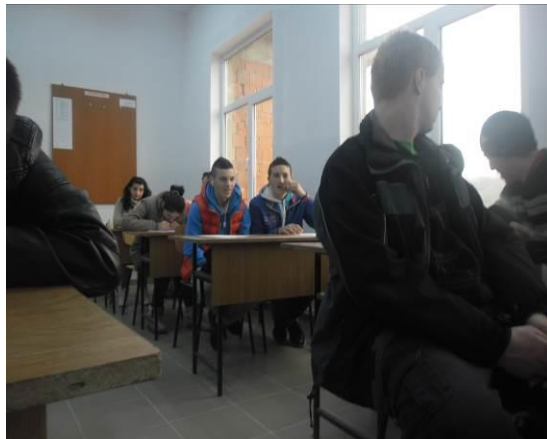

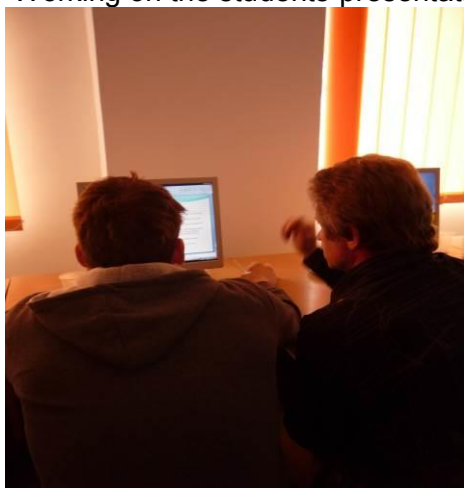

Week II

Monday, 10 March 2014

The czech students took part in their partners' lessons and then finished the common dictionary in the IT room.

Tuesday, 11 March 2014
Working on the students' presentations.

Wednesday, 12 March 2014

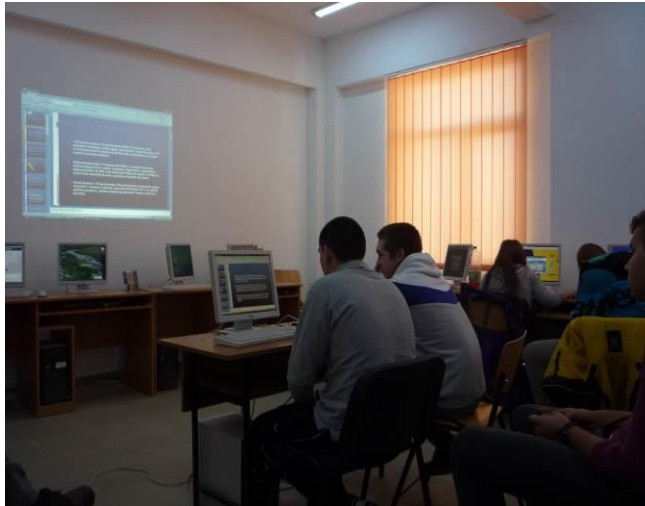

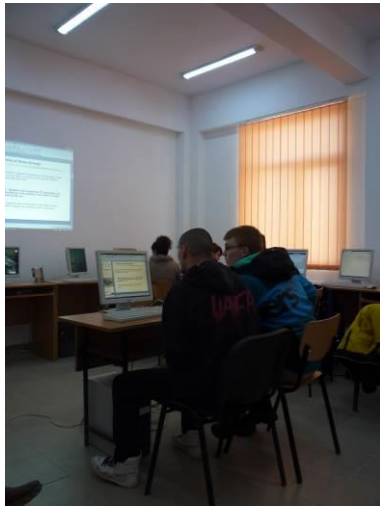

We went to Targovite town to see Faculty of Electrical Engineering. At this faculty the teachers and students are interested in nanotechnology, photovoltaic and others.

Thursday, 13 March 2014

The students presented their presentations in the IT room.

Friday, 14 March 2014

This was our last day of our exchange visit in Romania. The flight was good and we were really happy when we arrived at the Prague airport.
